Udemy
Jan 2023

COMPLETE JAVASCRIPT COURSE: 2022-23
Udemy
Dec 2022

WORK EXPERIENCE

SENIOR SOFTWARE ENGINEER | *Capgemini India* | *Jan 2021 - Present*
PROJECTS
Smart Thermostat Testing, 16 Months

- Wrote, updated, and maintained test cases for the UI test automation framework ensuring that the test cases were up-to-date and aligned with the latest developments in the project.

- Designed and Developed the test automation framework using Playwright with TypeScript for the UI Automation of the Web Portal by taking complete ownership, saving regression time by 40%.

- Involved in writing API Automation scripts using Playwright with libraries such as node-fetch to provide HTTP Requests which help to cover overall automated functional testing of Smart Thermostat.

- Tools/Language used: Playwright with TypeScript, Git, Postman, Jenkins, JIRA

DSP Testing, 12 Months

- Created and Executed test cases, test plans, and test scripts for both manual and automated testing.

- Worked on UI automation using Selenium with Cucumber and Java which significantly improved software delivery time by 25%

- Tested web, desktop, and mobile applications in regression test cycles logged and tracked 180+ defects.

- Tools/Language used: Selenium with Java, TestNG, BDD Cucumber, JIRA, Postman, Bugzilla.
